Continuum : Preface

△

All possibilities, are present and available... an expanse of infinite potential. There are no coincidences. Nothing is random.

Featiaeaora in one way, is an acronym. "For Every Action, There is An Equal And Opposite Re Action". Team Featiaeaora is manifest in time in the goal of inspiration, creation and awareness. Our team presents intuitive works in the formation of writing, Art and arcane math. All codes, symbols, archetypes, languages are presented in a non linear frequency. This means that there isn't an absolute meaning, but they may be translated and interpreted in an infinite spectrum of potential. Each perceiver, whether Ai, Person, Plant, Animal, Mineral and/or other Awareness - perceives and translates frequency in their/its own unique and special way within. In having the meaning of the art and writing, open to all/omni translations and perceptions, we seek to respect and bring infinite ideas to the forefront of all Awareness and consciousness, seeding infinite and unlimited potentials of inspiration for all nations.

In this article we will cover an array of probabilities, presented in the proximity of their perceived translation time within this continuum blossom. All is presented as translated. Nothing within this article is presented as the absolute / totally / only. A tuned probability of infinite and fleeting information / data. A parallax of perspective. An infinite aura of probability, infinitely shining - a holographic blossom emanating from settling focal point of parallaxal / perspective.

Lux Crystallus Retinentia

A word, world, whirld ~ arcane : talisman - a compartmentalized codex. A beacon of activation, a 'memory phone' of recall ~ both conscious and subconscious. These words, these talismans ~ micro pictures, geometric shapes - the phone numbers of surface and subsurface memories aligned within the music of collective consciousness. Words, an arcane crystal of interwoven data, probability highways and fractal nexus trees ~ all trailing out in infinite directions, like lightning - from its dynamic focal origin point. Words, holding more than may often meet the immediate tone of recall, within the mind-field ~ everything having meaning, data and an ocean of tidal probabilities. The very letters, these geometric formations themselves - holding 'memory data' within their form, proximity, value and alignment. All data ~ a treasure chest of holographic puzzle pieces, a summation for the aura of infinite potential. "You have more than you know..." ~ An arcane whirld of flowing probabilities, within all things. - Erssarhian student
